Dear MaryJo, hope you get this! remove any old stuff you wish that is on your opinion not so important, to make room for this new info...many thanks!)

This comes from Athens, Greece, I've recently been living in Hungary, The Netherlands, Greece, Austria, painting, writing, Returned briefly to the US 2005-2007 teaching Apache Indians in Arizona (White Mountain reservation) for a year, then went on to teach Navajo in New Mexico. Marvelous experiences, but I get too many threats and problems from weirdos. Overseas, I am well treated. Currently working with an archeology team on two excavations in Greece -- a government project. Hope everybody gets Edward Haslam's new book, DR. MARY'S MONKEY, available on Amazon.com, with two chapters about my life, clearly stating the truth about me, cancer research, Lee Oswald, and the JFK assassination. Wikipedia finally made a somewhat more accurate bio of me, but it's still full of errors. Finally enough people are getting the whole picture, despite efforts to cover up the truth. The banned documentary THE LOVE AFFAIR can be seen on YOUTUBE. My witnesses speak out on Dr. mary's monkey webvsite and on JFKMURDERSOLVED.COM. Further, Watergate's Hunt confessed on his deathbed concerning JFK's planned murder by important power figures. My five children are all doing well --I have seven grandchildren! Always glad to hear from classmates. Buddy Grace, Mastin, hope you write! I will always take time to write classmates! Sincerely, Judyth
